Patent Pending

Temperature Sensing Technology

Normal view with coil elements inserted

View with coil elements removed to show Coil Logic

Now available on all Brown Electric Ranges

by adding "-T" suffix to the model number (i.e. WEM110-T)

Benefits:

- Coil Logic™ **reduces the risk of cooking fires** by cycling the coil element as needed to keep common cookware from exceeding normal flashpoint temperatures with standard cooking oils.
- Cooking utensil remains in contact with the coil element to **maintain cooking performance** and achieve satisfactory boil results.
- Coil Logic™ is **factory-installed** for immediate use and added simplicity.
- Coil Logic™ is covered under **manufacturer's warranty**.
- Standard coil elements and drip pans for ease of cleaning.
- Product design is **CSA Certified** to UL858 standard.
